## ORPHAN'S HOME CHILDREN ARE GIVEN TREAT

ICE CREAM AND FIRE WORKS, THE GIFT OF THOSE ATTENDING THE ITINERANT SCHOOL AT DEPAUW UNIVERSITY, MAKE THE DAY A MOST HAPPY ONE FOR PARENTLESS YOUNGSTERS

The boys and girls at the Greencastle Children's Home were made very happy on the Fourth of July by a generous donation of ice cream and extensive fireworks from members of the Itinerant school of the Northwest and Indiana Conferences which is in session in Greencastle. It was a day never to be forgotten by the children. A number of our visiting ministers took their places at the tables with our boys and girls, and chatted with them while all enjoyed their ice cream to the fullest extent.

Brief talks were given by Rev. John Longdale, D. D. of Brooklyn, New York, who is one of the lecturers for the Itinerant School. All the family readily detected that Rev. Longdale possessed not only a master mind to instill noble thoughts and principles in the minds of religious leaders, but is also a moulder of the lives and destinies of boys and girls.

When the boys and girls were asked how many would like to be ministers and missionaries a number of hands were lifted. One, a little boy, five years of age, cried out, "Hold them higher boys."

All religious gatherings coming to this college town bring a rich and abiding blessing to our Home and children. On the other hand many people have visited the Home and for the first time have had a chance to visit Greencastle, the seat of DePauw University.

The Home management has only words of praise for the business men of Greencastle who have always been very considerate and generous in helping to show the children a good time.

## ME AND SARAH BALL CLUB WINS FROM SPECIALS

HARD HITTING, BASE RUNNING, GOOD PITCHING, BUNCH DEFEAT OTT WEBB CLUB ON SLOW TRACK, IN FOURTH OF JULY ATTRACTION

Minus the support of their official chaperones, and chief rooters, Mayor and Mrs. Lew Shank, better known as "Me and Sarah", the Lew Shank baseball team, which gives Indianapolis as its home town, defeated the Ott Webb Specials of Greencastle, in a slow game played on the McKeen field in Greencastle, as a Fourth of July attraction.

Good Pitching, Hard Hitting and Good base running won for the visitors. The baseball field was slimy and slick, which slowed the game considerably.

Bullerick and Husky, the Greencastle battery played good baseball and deserved better support than they were given by their teammates. The Indianapolis sluggers got 10 hits off Bullerick, the Putnamville Ace, while the local bats were able to get only 5 hits off Turner, the "Me and Sarah" chucker.

Oh, yes, the score. It was 4 to 0, and here is the way of the game: Me and Sarah ... 100200100-4 Greencastle ... 000000000-0

**New Uses for German Castles.**  
The castles of Cassel, which originated in the time of landgraves, have been turned to new uses. The residence castle has been occupied by a picture gallery; a German tapestry museum is to be opened there shortly. It is rumored that the famous castle Wilhelmshohe, in which Napoleon III lived as a prisoner, is to be converted into a hotel. One of the most beautiful castles of central Germany is the Orange castle in the Karlsruh, which somewhat resembles the Sanson of Potsdam. The government in Cassel uses it for exhibition purposes.

**Rather Risky.**  
A movie queen approached the manager with a momentous question. He was not unprepared for it. "Don't you think I can make just as good pictures if I marry?" The big boss deliberated and made measured reply: "It's risky, girlie." "Why so?" "Well, you won't get so much help. As things stand, the author, the director, the camera operator, the press agent and the property man are in love with you."—Los Angeles Times.

**In the Health Swim.**  
Two plunges daily in a swimming tank keeps the doctor away, is the belief of Fred L. Eaton, assistant United States district attorney, who says that he practices his preaching by a morning and evening swim in a tank at a hotel where he resides, the Detroit News reports. Mr. Eaton says that real comradeship is found among those who frequent the swimming tank—a comradeship more fraternal and lasting than that of golf enthusiasts.

## WOULD MOVE THE METHODIST HOME TO MOORESVILLE

MOVEMENT ON FOOT FOR RELOCATION OF ORPHAN'S INSTITUTION TO MORGAN COUNTY TOWN—NO SUITABLE LOCATION HAS BEEN SUBMITTED BY GREENCASTLE BOARD OF TRUSTEES TO MEET TUESDAY

Mooreville, Morgan county, is seeking the location of the Greencastle Methodist Orphan's home. The Chamber of Commerce, School organization and Churches of that town ask that the home organized and founded here by Miss Angie Godwin, be taken to that town.

For some time the Board of Trustees of that institution has been considering a re-location of the Home. The home now occupies a large brick residence at the corner of Franklin and Locust Streets.

However, the building is too small not properly arranged and the surroundings not just what the trustees desire. It has been the desire of the trustees to secure a small farm, near Greencastle, on which the new home could be located.

Learning that the trustees desired a new location, Mooreville became active and secured an option on a 30 acre farm near town, and now is urging that the trustees select it as a new location for the home.

The Rev. H. C. Clippinger, Jesse McAnally and Ben Riley, all members of the Board of trustees, were named on the Greencastle location committee. The Mooreville committee members are also members of the Board of Trustees.

A recent meeting of the Board held here, the Mooreville proposition was discussed, but at that time the Greencastle location committee had no recommendation for a new location to make.

Following the meeting both Mr. Anally and Mr. Riley resigned as board members, leaving Dr. Clippinger as the only member of the Greencastle re-location committee.

The Board will meet again here next Tuesday to consider the relocation committee and at that time the Mooreville committee probably will urge to acceptance of its report recommending the relocating of the home in that town.

The Methodist's Orphans home is a purely Greencastle institution, having been organized and promoted by

Miss Angie Godwin. After it had been thoroughly established and become so large that she could not individually look after its management a reorganization was effected. The Institution is a most meritorious one and is well worthy of the support of Greencastle.

Greencastle should not allow this meritorious and growing institution to be taken away. Already several thousands of dollars have been pledged for a new location for the home near Greencastle.

Mrs. Will Cook of LaCrosse, Indiana has pledged \$12,000 for a relocation of the home at Greencastle; Tom Rooker of Mooreville has deeded a 206 acres farm to the Greencastle Orphan's Home; A Mt. Vernon man has pledged \$3,000 cash for the purchase of a new location for the home at Greencastle and another very wealthy man has promised something worth while, although nothing definite is given for a new Greencastle location. In all there is \$90,000 in donations to the Greencastle Methodist Orphan's Home.

These gifts are all made for the Greencastle Methodist Orphan's Home it is pointed out and probably much of it would be lost if another town was selected as the place for the institution.

The Home at present is a purely Indiana Conference Home but it is anticipated that other Methodist conferences might join in the support of the home later.

The Bridges farm, east of town, and the old Greencastle Orphan's Home location just south of town, are the only two locations which have been proposed by the local people. Neither of these locations, are suitable, however.

Sam Henry, a prominent Madison township farmer, lost a valuable cow Tuesday. The animal was struck by lightning.

## A CLOVERDALE BOY INJURED BY EXPLOSION

ONLY FOURTH OF JULY CELEBRATION ACCIDENT REPORTED IS CAUSED BY TIN CAN, CARBIDE, WATER AND A MATCH—BAD SCALP WOUND IS RESULT

A tin can filled with carbide, to which was added just sufficient water to cause gas to be generated, then a lighted match, held by Floyd Farmer son of Mr. and Mrs. Fred Farmer, of Cloverdale, resulted in the only Putnam county Fourth of July celebration casualty reported to the Herald. Young farmer conceived the idea that some carbide, a chemical used in generating gas for lighting plants, would be a good instrument to use in celebrating the Fourth. He placed some of the carbide in a tin can, poured on some water and then touched a match to it. Bang! The explosion occurred just as anticipated, but Farmer failed to dodge one of the fragments of the tin can. It hit him high on the forehead, cutting a long gash and laying back his scalp.

## FIRE DEPARTMENT MAKES TEST RUN

The fire department was called to the Monon Restaurant, Tuesday evening about 9:30 o'clock in a test run. The test run which was made in answer to a call sent in by the Fire Chief, was made in one and a half minutes. This is a good record for the fire fighting force.

## TODAY'S STOCK MARKETS

Despite the large receipts hog prices continued their upward movement advancing 15 to 20 cents. General sales were from \$7.75 to \$7.80 and the top price was \$7.85. Most sales however were at \$7.80. Pigs were strong to 25 cents higher selling from \$7.25 down. Sows were also slightly higher, the heavy kind selling from \$6.25 down and the lighter from \$7.00 down. The demand from outside buyers was usually large and they took 7,000. The rest of the supply was absorbed by local killers.

Cattle were active at strong to higher prices. Some baby heifers sold as high as \$10.25 equalling the high prices of the year. Calves were 50 cents higher, selling from \$13.00 down and sheep were steady at \$15.00 down.

## GIBBONS STAYS 15 ROUNDS WITH CHAMPION JACK

ST. PAUL FIGHTER SURPRISES FIGHT FANS BY GOING LIMIT WITH DEMPSEY IN SHELBY, MONT., AFFRAY—IS SEVERELY PUNISHED DURING LATE ROUNDS

SHELBY, Mont., July 4.—The whole sporting world was wrong—with the exception of that courteous, smiling individual, Tommy Gibbons of St. Paul.

The challenger, to the astonishment of the 25,000 spectators in the sun-baked arena on the edge of this oil-boom town, was on his feet, still fighting at the end of his scheduled fifteen-round heavy-weight championship battle today with Jack Dempsey when almost everybody expected him to be knocked out in six or seven rounds.

Dempsey, the champion was an overwhelming favorite to win by a knockout early in the battle.

Referee Jim Dougherty of Philadelphia awarded Dempsey the decision when the gong clanged ending the fifteenth round, but Gibbons, who did not get a cent for fighting the champion, left the ring with a moral victory. It was the first time that any fighter had managed to face Dempsey and still be on his feet at the finish since he became champion.

Gibbons has a reputation made in eighty-six fights of never having been knocked off his feet. That reputation is still good. Dempsey had him dizzy and weary, probably had a dozen times today but failed to knock him out.

The fight made an entirely different ending than any of the spectators, expected. Even the enthusiastic Gibbons protagonists, shouting encouragement to their fighter, had not the slightest idea he would last more than seven or eight rounds. In fact, it was the consensus that four or five rounds would find Tommy on the floor knocked out.

Tommy, a master boxer and constantly on the lookout for the knockout blow, danced and hop-stepped around the ring, occasionally slipping a right or left to Dempsey's face and then eluding danger by clinching or stepping backward.

Toward the last Gibbons seemed to be fading fast and repeatedly went into clinches with the champion. In the last round it appeared that his defenses were failing and many expected Dempsey to administer the expected knockout. The champion, seeing the condition of the challenger, furiously slashed at his head and body, but Tommy hung on and clinched and side-stepped until the saving grace of the final bell.

Dempsey was never in danger in a round of the fight. Although Gibbons cut and slightly blackened the champions right eye in the opening round, and Dempsey brought blood once or twice from the challenger, neither was marked to any appreciable extent.

A majority of the newspaper experts at the ringside gave Gibbons a shade in the fifth, eleventh and thirteenth rounds the remaining twelve being accorded Dempsey without argument. Neither the champion nor the challenger were ever off their feet, although once Gibbons nearly fell through the ropes and was helped back by Dempsey.

While motoring with friends from this city Wednesday evening the rear axle broke on the Ford touring car driven by Archie Dunkin of this city a short distance west of Reelsville. As the car stood in the road, a Ford touring car from the west crashed into the Greencastle car. The Ford plunged down a steep bank at the roadside, breaking the windshield of the machine and badly shaking up the occupants. The car was only slightly damaged. The driver of the touring car stated that the blinding lights from another car together with the pouring rain caused him to fail to see the Dunkin car at the side of the road. The occupants of the Ford touring car were brought to this city in a passing machine. The machine was taken to the Reelsville garage for repairs.

## Voltaire Pleased With Puppet Show.

At all times puppet-shows have appealed strongly to the artistic and creative temperament. Over 200 years ago a staid member of the French academy, Malesieu, wrote plays for the marionette stage, one of them being performed before the duke of Bourbon in 1705. Voltaire not only enjoyed such diversions, but on one occasion assisted in manipulating the figures.

## Clay Tramping.

In the manufacture of glass, the clay for the pots in which the ingredients are melted must be kneaded by human feet. No mechanical means has been found entirely satisfactory in producing the proper consistency. As might be imagined, this is thresome work for the trampler, and he often suffers greatly from sore feet as a result of this kind of work.

## Mystery of Sleeping Sickness.

Sleeping sickness, the African mystery malady, is not contagious in the ordinary sense of the word, but at the same time it may be "caught" and passed from one to another, but under just what conditions this may take place is a mystery. A symptom is not always a desire for sleep, but alert wakefulness.

## The End of That.

He was ten, I was nine. We were fond of whispering to each other in school. For punishment our teacher would make us sit together. One day, while being "punished," who should visit school but my mother and a cousin. That ended my first love affair.—Exchange.

## Carriage Cost \$200,000.

The most valuable carriage in the world is preserved in the palace of the Trianon at Versailles. It was constructed for Charles X of France. From pole to hind wheels the vehicle is thickly covered with gold and it cost more than \$200,000.

## Unfortunate Inventor.

Although he gave his life to advocating castiron plows, and his improvements of such plows were considered important in the history of the implements, Jethro Wood of New York was unable to market his patents or secure royalties.

## Want Never Fully Supplied.

Hazel came to spend the day with me, and as she did not eat much for her dinner I asked her in the afternoon if she wanted anything, to which she answered, "Oh, yes, I've got an awful want for candy."—Exchange.

## Chinese Soldiers Taught Ferocity.

One of the "secrets of victory" taught to Chinese soldiers follows: "The enemy must be killed; if the rifle is broken, use the butt; if the butt is broken, use the fist; if the fist is disabled, use the teeth."

## Virtue in Adversity.

Times of general calamity and confusion have ever been productive of the greatest minds. The purest ore is from the hottest furnace, and the brightest thunderbolt from the darkest cloud.—Colton.

## The Motive Power.

Peer far enough into any "movement" and you will discern the figure of the gentleman who is awaiting an opportunity to sell you a season ticket.—Philadelphia Public Ledger.

## And It's the Same Thing.

It probably is correct to say that the average wife keeps her husband under surveillance, but it is so much easier to spell "thumb."—Exchange.

## Gorilla's Wonderful Strength.

A gorilla four feet six inches in height has the strength of four strong men. It can bend double a pair of 12-bore gun barrels in its paw.

## Discretion Always Well.

Without discretion, people may be overlaid with unreasonable affection, and choked with too much nourishment.—Jeremy Collier.

## The Scientific Attitude.

"I have no real basis for recognition by a scientist except that I want nothing so much as to be right."—Theodore Roosevelt.

There are eleven tests which a watch must undergo to win the highest rating of the United States bureau of standards.
